**Association for Women in Technology Special Announcement**

*We are going back to basics--to the things that made AWT a successful organization!*

**IRVINE, Calif., June 11, 2009** — The Association for Women in Technology (AWT), the county's only not-for-profit supporter of women in all fields of technology and science, are going back to basics! To better server the membership, AWT will be combining some of the multiple events we have each month into a single regularly scheduled monthly meeting to make scheduling easier. Starting in August; AWT meetings will be held the second Wednesday of the month. We will give more focus to the monthly meeting which will in turn give you more value from your membership. In addition, we will be asking for feedback from you, and continue to improve our program. Technology forums and networking will continue to be a primary part of the agenda. AWT will be under the leadership of Patty Ledonne as Interim President and Melissa Galassi as the Interim Vice President.

The Association for Women in Technology is a non-profit business organization dedicated to empower women in all fields of technology. We facilitate networking and career development through informal and professional events. AWT also supports a Charitable Foundation to provide scholarships for women in Southern California. To learn more about AWT, please visit its Web site at [www.awtsocal.org](http://www.awtsocal.org).
